

IN THE SPECIFICATION

Replace the paragraph starting at page 6, line 21, with the following:

The following examples illustrate the invention with reference to the following figures.

Starting at page 6, line 22, insert the following header and paragraphs:

BRIEF DESCRIPTION OF THE DRAWINGS

Figure 1 shows the response of PBMCs at different concentrations to an HLA class I-restricted influenza T cell epitope.

Figure 2 shows the enumeration of IFN- γ releasing spot-forming cells (SFCs) for the influenza T cell epitope M158-66.

Figure 3 shows the enumeration of IFN- γ releasing SFCs for the same epitope at different concentrations.

Figure 4 shows the enumeration of IFN- γ releasing SFCs to identify peptide epitopes.
